

Comprehensive Description of All 38 Diseases – Medicines & Cultivation Areas (Nepal Context)

Below is a **complete summary** of every disease in your database. For each, you will find:

- **Medicine(s)** most commonly used (organic/chemical)
- **Recommended growing regions** in Nepal (Terai, Mid-hills, High hills)

This table can be directly included in your project report or used as a reference.

1. Apple Diseases (4)

Disease Name	Medicine(s) (example)	Cultivation Regions in Nepal
Apple Scab	Captan, Myclobutanil, Sulfur	High hills: Jumla, Mustang, Jiri; Mid-hills: Myagdi. Requires cold winters.
Apple Black Rot	Captan, Thiophanate-methyl	Same as above; avoid humid, poorly drained sites.
Apple Cedar Rust	Myclobutanil, Chlorothalonil	Same as above; remove nearby cedar trees.
Apple Healthy	No medicine needed	All apple-growing regions of Nepal.

2. Blueberry (only Healthy)

Disease Name	Medicine(s)	Cultivation Regions
Blueberry Healthy	None	Experimental in mid-hills: Kaski, Lalitpur; needs acidic soil.

3. Cherry Diseases (2)

Disease Name	Medicine(s)	Cultivation Regions
Cherry Healthy	None	Mid-hills: Kaski, Syangja, Parbat.
Cherry Powdery Mildew	Myclobutanil, Sulfur, Neem Oil	Same as above; improve air circulation.

4.Corn (Maize) Diseases (4)

Disease Name	Medicine(s)	Cultivation Regions
Corn Cercospora Leaf Spot	Azoxystrobin, Propiconazole	Terai: Siraha, Saptari, Dang; Mid-hills: Sindhupalchok.
Corn Common Rust	Propiconazole, Azoxystrobin	Same; plant resistant hybrids.
Corn Healthy	None	All maize-growing areas.
Corn Northern Leaf Blight	Azoxystrobin, Pyraclostrobin	Same; crop rotation essential.

5.Grape Diseases (4)

Disease Name	Medicine(s)	Cultivation Regions
Grape Black Rot	Myclobutanil, Mancozeb	Mid-hills: Kaski, Lalitpur, Kavre.
Grape Esca (Black Measles)	Fosetyl-Al, Tebuconazole	Same; remove infected wood.
Grape Healthy	None	Same as above.
Grape Leaf Blight	Mancozeb, Azoxystrobin	Same; avoid overhead watering.

6. Orange (citrus)

Disease Name	Medicine(s)	Cultivation Regions
Orange Haunglongbing (Citrus Greening)	Imidacloprid (for psyllids), Copper hydroxide	Mid-hills: Syangja, Dhankuta, Dadeldhura. No cure; remove infected trees.

7. Peach Diseases (2)

Disease Name	Medicine(s)	Cultivation Regions
Peach Bacterial Spot	Copper hydroxide, Oxytetracycline	Mid-hills: Kaski, Parbat, Baglung.
Peach Healthy	None	Same as above.

8.Pepper (Bell Pepper) Diseases (2)

Disease Name	Medicine(s)	Cultivation Regions
--------------	-------------	---------------------

Pepper Bacterial Spot	Copper hydroxide, Mancozeb	Terai: Chitwan, Dang; Mid-hills: Lalitpur, Kavre.
Pepper Healthy	None	Same as above.

9. Potato Diseases (3)

Disease Name	Medicine(s)	Cultivation Regions
Potato Early Blight	Azoxystrobin, Mancozeb	Terai (winter): Kanchanpur; Mid-hills: Kaski, Solukhumbu; High hills: Jumla, Mustang.
Potato Healthy	None	Same as above.
Potato Late Blight	Metalaxyl, Mancozeb, Cymoxanil, Fluazinam	Same; very destructive in wet, cool weather.

10. Raspberry (only Healthy)

Disease Name	Medicine(s)	Cultivation Regions
Raspberry Healthy	None	Mid-hills: Kaski, Ilam (limited).

11. Soybean (only Healthy)

Disease Name	Medicine(s)	Cultivation Regions
Soybean Healthy	None	Terai: Jhapa, Morang, Sunsari, Banke.

12. Squash (only Powdery Mildew)

Disease Name	Medicine(s)	Cultivation Regions
Squash Powdery Mildew	Myclobutanil, Chlorothalonil, Sulfur	Terai: Chitwan, Banke; Mid-hills: Kathmandu, Kaski.

13. Strawberry Diseases (2)

Disease Name	Medicine(s)	Cultivation Regions
Strawberry Healthy	None	Mid-hills: Kaski, Lalitpur, Ilam.
Strawberry Leaf Scorch	Captan, Mancozeb	Same as above.

14. Tomato Diseases (10)

Disease Name	Medicine(s)	Cultivation Regions
Tomato Bacterial Spot	Copper hydroxide, Mancozeb	Terai (winter): Chitwan, Bara, Parsa; Mid-hills (summer): Kathmandu, Dhading.
Tomato Early Blight	Azoxystrobin, Mancozeb, Chlorothalonil	Same; rotate crops, stake plants.
Tomato Healthy	None	Same as above.
Tomato Late Blight	Metalaxyl, Mancozeb, Chlorothalonil	Same; highly destructive in wet weather.
Tomato Leaf Mold	Chlorothalonil, Copper hydroxide	Same; improve air circulation.
Tomato Septoria Leaf Spot	Chlorothalonil, Mancozeb	Same; avoid overhead watering.
Tomato Spider Mites	Neem Oil, Abamectin, Spinosad	Occurs in hot, dry conditions; common in Terai.
Tomato Target Spot	Chlorothalonil, Azoxystrobin	Same as general tomato areas.
Tomato Mosaic Virus	No cure; use virus-free seed, Neem oil (for vectors)	Same; prevention only.
Tomato Yellow Leaf Curl Virus	Imidacloprid (for whiteflies)	Same; use resistant varieties.
